United Electric Controls (UE), a leading producer of safety, alarm and shutdown technology, will be exhibiting at the Abu Dhabi International Petroleum Exhibition & Conference (ADIPEC) on November 13th -16th. UE will introduce its latest product, the Vanguard WirelessHART® Gas Detector for toxic and combustible gases. The Vanguard WirelessHART® gas detector's flexible monitoring of toxic or combustible gas can save lives. Its ultra-long battery life saves maintenance trips. Its easy pushbutton calibration; mount-anywhere mobility; and seamless, plug-and-play interoperability save time and trouble. And of course, eliminating long wiring runs lowers installation costs.

To learn more about reducing maintenance cost and installation time by 90%, visit us in [Hall 2, at Booth #2450](#). Visit <http://www.ueonline.com/vanguard/index.html> to learn more.

About United Electric Controls (UE)

UE is an international manufacturer of wireless gas detectors, durable and reliable pressure and temperature switches, controls and sensors. Focused on providing protection to equipment, processes and personnel in a variety of industrial applications, our products range from simple units to highly specialized custom designs. UE's reputation for dependable, reliable products is a result of innovative design, superior manufacturing techniques, and a corporate focus on uncompromising quality.

Founded in 1931 United Electric Controls, and its divisions, Applied Sensor Technologies and Precision Sensors, is a privately held corporation headquartered in Watertown, Massachusetts, USA.
