WHAT'S NEW

United Electric Controls' New ISO Certification: ISO 9001:2015

WATERTOWN, MASS., USA — October 18th, 2017

United Electric Controls (UE), a leading producer of safety, alarm and shutdown technology, is pleased to announce that we have achieved certification to the new ISO 9001:2015 - Quality Management System standard. This certificate is valid for the following scope: Design, Manufacture and Service of Industrial Controls and Sensors for Temperature, Pressure and Gas Detection.

This was a cross functional effort which was accomplished by diligent training, careful revision, improvement and implementation of UE's Quality Management System.
